

We, my wife Mary Ann and I, are regular air travelers and we are totally oppose to allow cellular telephone use aboard airborne aircraft.

Enough is enough, you could find people talking in their cellular phones at the Post Office, in Churches, sport events and even in men restrooms.

Can you imagine crossing the country with one person on each side talking for hours ?

We have right to travel in peace, in quiet and confort.

Please, keep the ban ON !

Thank you for your time and consideration to our request.

Carlos M. and Mary Ann Pianelli
